

MC23A

TORQUE

Compact Pump

Pneumatically powered unit
for **explosive environments**

Features

SAFETY

- + Pressure outputs contrary to the limiting valve, pressure gauge.
- + Limited risks of projections to the user.
- + Ergonomic handgrip with start, stop and pressure control.

USER FRIENDLY

- + Remote control and easy to push start / stop / pressure buttons.
- + Inner compartment for collecting cable.
- + Pressure regulation valve.

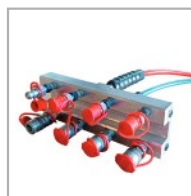

CUSTOMIZATION

- + Adapted to customer needs.
- + Threaded or quick connection couplings.
- + Colour and stickers.

Applications

Available accessories

**MultiTorque
Distribution Block**

- + Four torque wrenches simultaneous
- + Pump connection hose included
- + High pressure (800 bar)
- + Quick couplings

Handgrip REMOTE OPERATION

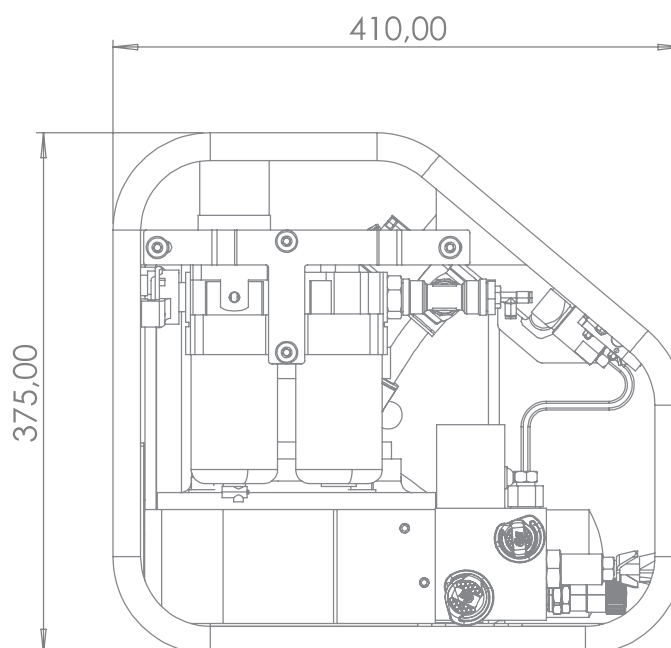

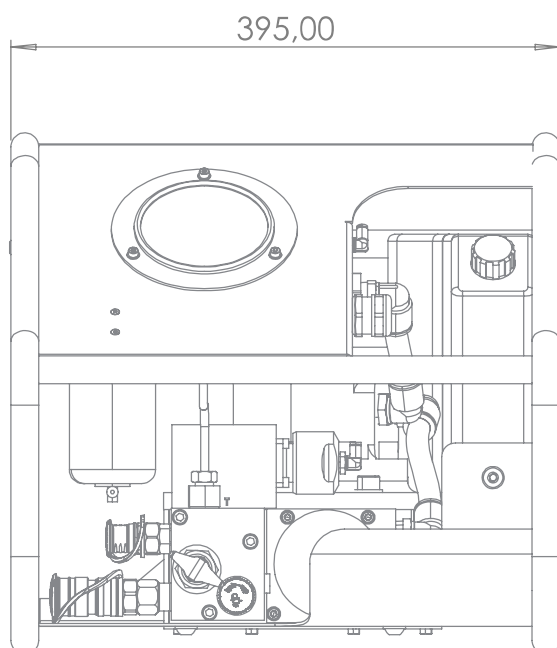

Optimum air supply		Max. Oil Flow	Oil Tank Capacity	Weight	Max. Pressure	Height	Length	Width
Airflow	Pressure	l/m	l	kg	bar	mm	mm	mm
220 m³/h	7 bar	2	2,5	33	800	375	410	395

MC23A

Compact Pump

TORQUE

Features

Power	3.0	kW
Air Power Supply		
Flow	220	m ³ /h
Pressure	7	bar
Max. Oil Pressure	800	bar
Max. Oil Flow	4,5 (350 bar)	l/min
Mustistage	2	
Integrated cooling system		
Weight	29.50	kg
Oil Tank Capacity	2.5	l
Handgrip	yes	
Cable Handgrip Length	5	m
